

**Our skilled, locally trained
workforce delivering quality
building and construction projects.**
Share our vision.

A MEMBER OF THE JAWOYN CONTRACTING GROUP

ALONG WITH

Jawoyn Contracting New Builds provides quality construction services across the Katherine and Arnhem regions.

Jawoyn New Builds is part of Jawoyn Contracting, a proudly 100% Indigenous owned company established in 2018 to provide construction, demolition and minor building works and services throughout Jawoyn Country. While the contracting arm of the business was, and is, thriving, we saw a need to diversify into construction specifically.

The New Builds arm has a core element of full-time employees, and is able to pull from the Jawoyn Contracting pool to scale up and down. Currently, our clients include the Northern Territory Department of Housing, and building for Jawoyn lands.

Our team carries out work in a professional manner at all times, with expert levels of workmanship and output.

Building our country, together.

Offering employment opportunities to locals through traineeships and apprenticeships.

“If you share our vision, then we look forward to working with you.”

Jawoyn Contracting was first established to conduct building and construction works on Jawoyn Country. We had been building and managing infrastructure projects with the Jawoyn Rangers and saw an important opportunity in being able to grow a new dedicated workforce and to apply for public and private projects open for tender across the region, especially those on Jawoyn lands.

As advocates for Aboriginal people working to build our country, we also believe it is important to invest in Indigenous employment and training, as well as provide opportunities to those living on Jawoyn lands. We have 10 FTE's with access to a pool of up to 30.

Jawoyn Contracting New Builds has been created to service a growing need in public and private projects in the area, and to provide employment opportunities for our strong Indigenous workforce.

General House Builds:

- Detached houses
- Semi-detached houses
