

**Proudly 100% Indigenous owned,
for local employment, stability
and growth.
Share our vision.**

A MEMBER OF THE JAWOYN CONTRACTING GROUP

**JAWOYN
CONTRACTING**
BUILDING OUR
COUNTRY

ALONG WITH

Jawoyn Contracting Repairs and Maintenance invests in Indigenous training and employment to provide opportunities to those living on Jawoyn lands.

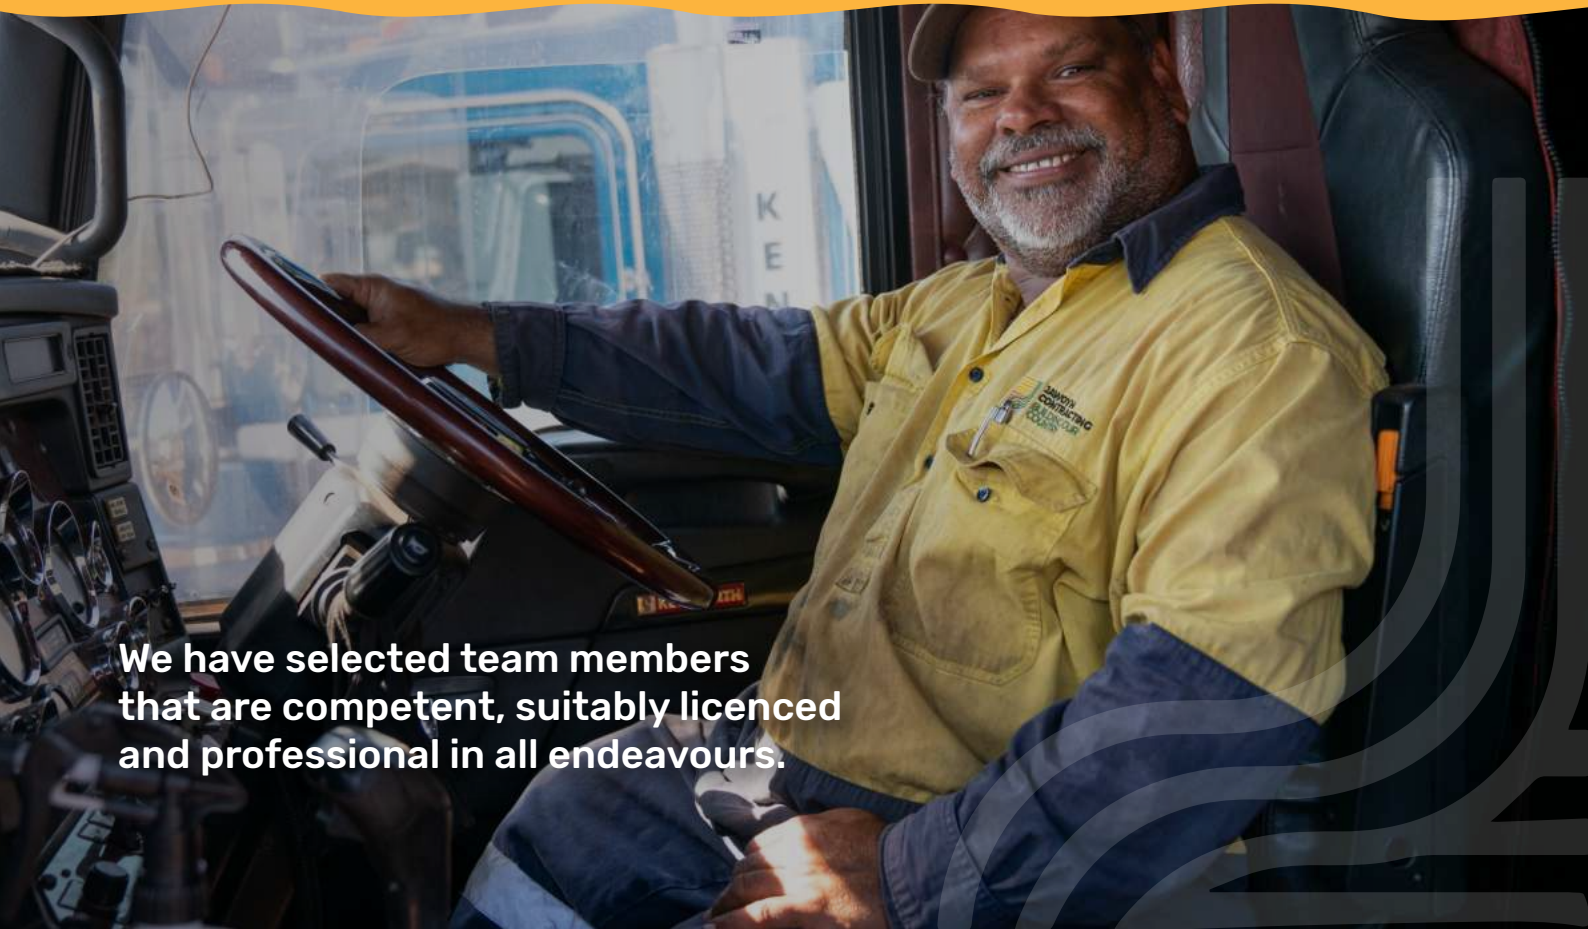

As part of Jawoyn Contracting, the Repairs and Maintenance arm undertakes work across Katherine and Arnhem for projects including executing necessary repairs and maintenance on NTG remote houses located in the 3 communities on Jawoyn country. The team is comprised of Jawoyn people, who carried out works on their families homes in these remote communities.

Jawoyn Contracting Repairs and Maintenance forms part of the bigger picture for the group, knowing that the best opportunities are those most likely to provide long term financial returns and training for Indigenous people. We are available to business for work across the Big Rivers region, the Top End and beyond.

Building our country, together.

We have selected team members that are competent, suitably licenced and professional in all endeavours.

“If you share our vision, then we look forward to working with you.”

Jawoyn Contracting was first established to conduct building and construction works on Jawoyn Country. We had been building and managing infrastructure projects with the Jawoyn Rangers and saw an important opportunity in being able to grow a new dedicated workforce and to apply for public and private projects open for tender across the region, especially those on Jawoyn lands.

As advocates for Aboriginal people working to build our country, we also believe it is important to invest in Indigenous employment and training, as well as provide opportunities to those living on Jawoyn lands. We have 10 FTE's with access to a pool of up to 30.

Jawoyn Contracting Repairs & Maintenance delivers timely and professional services, and promotes the employment of local Jawoyn people to work on Jawoyn country.
